

Gebhardt International Cedar Homes Inc.

Quality Cedar Loghome Manufacturer

Our services for you

From the design to the completion
We'll be happy to help you

Consulting

Please come to us and tell us your wishes, preferences and ideas. Together we'll develop alternatives for the realization of your loghome, depending on the choice of natural resources, technical realization, given laws and, of course, attractive design.

There are two ways to get the job done

1. You are already working with an architect: On the base of your architect's plans existing so far, we'll make an offer at no charge and without obligation.
2. You don't work with an architect so far: Then our architect will develop a plan based on your wishes which you will re-check. Based on that the construction plan will be layed out. Our architect will give you lots of ideas. You can trust his experience.

Based on these plan we are able to send you an offer including a complete list of the material needed.

Solution

We'll develop an up-to-date solution, considering all your specific needs, and calculate the costs. Searching land, Layout, Planning, Construction, Support - all from one source.

Planning

We will ensure the time-based coordination of material, work, people and authorities for your construction project.

Construction

Our experienced team supports you in the whole construction process until completion and will back you up, so you can lean back.

Service and Support

When the job is done, we are still there for you. For maintenance questions, consulting for your own wood-works or coming changes and upgrades.
